

Integrated HIV Prevention and Care Plan Recommendations

Prioritization of Federal Reviewers Comments IHPCP HPG:

- No proposed changes to the document.

Recommended Changes to the 2022-2026 PA IHPCP

- Part 1: CQI Work Group Recommendations:
 - No proposed changes to the document.
- Part 2: Subcommittee Recommendations:
 - There was a suggestion to add “county” facilities as well as the Department of Corrections.
 - There was another suggestion to incorporate innovative HIV Peer Support personnel to help provide a linkage of care for those transitioning out of incarceration. This suggestion was left to the discretion of the Division to flexibly integrate, as specific language was not added to the document by the HPG.
- Part 3: Aging and Disability Work Group
 - There was a suggestion to increase the cap on MAWD assets to \$20,000.
 - Although this cap is a federal requirement, the group emphasized that the Division should still raise this concern.
 - It was suggested that the Department of Human Services could be contacted to raise this concern to their federal contacts.
 - “Advocating” for change to the cap was emphasized.
- Part 4: HRSA Recommendations
 - No proposed changes to the document.
